March 16, 2020

Dear Bethany Community School Families,

Our district team has prepared supplemental learning plans to provide ongoing educational opportunities for all our students. These plans include access to practical and digital learning resources. We anticipate that the provided materials will help reduce loss of learning, continue to academically challenge our students, and limit downtime during this period.

We are recommending that all students continue to access their online programs for 30-45 minutes per week, per subject area (i.e iReady, etc). We are providing recommended websites for which our students have accounts in the supplemental learning plans.

Recommended websites that students use in schools:

- i-Ready Math and Reading (Student Login: <https://login.i-ready.com>) for grades K-6 and At Home Packets [i-Ready.com/AtHome](https://www.i-ready.com/AtHome))
- Starfall (<https://www.starfall.com/h/>)
- Greg Tang Math Games www.gregtangmath.com

Additionally, in light of the current events surrounding COVID-19, we are asking families to complete this brief survey to assist the District in ongoing contingency planning. **If you have not already done so, please complete this [brief survey](#) regarding technology access, as soon as possible for each child enrolled at BCS.**

If you have any questions or concerns regarding the supplemental learning plans or information in the survey, please contact me directly at kbyrd@bethany-ed.org .

Regards,

Mrs. Kai Byrd
Director of Special Services, Curriculum and Instruction
